

## LinkMeEasy

The purpose of this document is to provide the brief about the testing process with respect to **LinkMeEasy** application done in Provab technosoft Pvt. Lmt. The app is about to get connect to nearby people with just being online can send, accept and reject request without adding phone number. It is very easy to use and user friendly. The application is developed and fully tested from the Scratch. We have tested all the flow with negative scenario. App is completely developed and tested from our side.

The testing have been done in both android and IOS platform and the app is completely working and bug free. The application is completely ready to merge with all the **Instant Messaging Applications**.
